## FOREWORD

The Westchester County Department of Health (WCDH) plays a leading role in promoting health, preventing disease, and prolonging meaningful life for Westchester County residents. WCDH monitors and controls the spread of communicable diseases, monitors and regulates air and water quality, enforces the state and local sanitary code, promotes local public health activities, and assures the availability of community health services.

Supplementing the *Westchester County Community Health Assessment (CHA) and Community Health Improvement Plan (CHIP), 2014-2017*, six additional data reports are compiled to provide detailed data addressing specific areas relevant to the county's public health. These **Supplemental Data Reports** are:

- Westchester County Community Health Assessment Supplemental Data Report 1. Population
- Westchester County Community Health Assessment Supplemental Data Report 2. Vital Statistics
- Westchester County Community Health Assessment Supplemental Data Report 3. Communicable Diseases
- Westchester County Community Health Assessment Supplemental Data Report 4. Cancer
- Westchester County Community Health Assessment Supplemental Data Report 5. Emergency Room Visits
- Westchester County Community Health Assessment Supplemental Data Report 6. Hospitalization

Data presented in this report are from the 2000 and 2010 Census as well as the 2007-2011 American Community Surveys (ACS) conducted by the U.S. Bureau of Census. Detailed information is presented for the county's population by age, sex, race/ethnicity, education, family structure, immigration and language spoken at home, labor force participation and unemployment, household income, poverty, housing, and commuting. Information is presented at the municipality level and zip code level whenever data are available.

## HIGHLIGHTS

- According to the 2010 Census, there were 949,113 people residing in Westchester County in 2010, a 3% increase from 923,459 in the 2000 Census.
- 48.1% were male and 51.9% were female.
- 68.1% of Westchester County residents were white, 14.6% were black, 5.5% were Asian or Pacific Islander, and 11.8% were of some other or mixed race.
- The percentage of the Hispanic population increased from 15.6% in 2000 to 21.8% in 2010.
- The majority of the Westchester County population over the age of 25 has received a high school diploma (87.3%), and almost half (44.5%) have attained a bachelor's degree.
- Education varied by race and ethnicity. 50.2% of whites attained a bachelor's degree or higher, compared to 25.4% of blacks and 18.7% of Hispanics. 9.2% of whites had less than a high school education, compared to 16.7% of blacks and 33.0% of Hispanics.
- The percentage of single-parent households with children under 18 has increased from 22.4% in 2000 to 24.6% in 2010.
- Almost one-fourth (24.6%) of Westchester County residents are foreign-born. For the population of five years and older, 46.1% speak a language other than English at home.
- The overall unemployment rate for Westchester County was 7.2%, according to the 2007-2011 American Community Survey (ACS) estimates. Blacks were almost twice as likely to be unemployed (11.5%) than whites (6.1%).
- The median household income in Westchester County was estimated at \$80,725 in the 2007-2011 ACS (adjusted for inflation to 2011 dollars).
- 8.9% of the population was living in poverty. 15.6% of blacks and 19.1% of Hispanics, compared to 5.7% of whites.
- The percentage of the population living in overcrowded housing decreased from 6.0% in the 2000 Census to 4.2% in the 2007-2011 ACS.
- Rather than driving alone, 38.1% of the population chose an alternative mode of transportation for the commute to work, including carpooling, public transportation, walking, bicycling, or telecommuting.

## 2010 CENSUS AND 2007-2011 AMERICAN COMMUNITY SURVEY

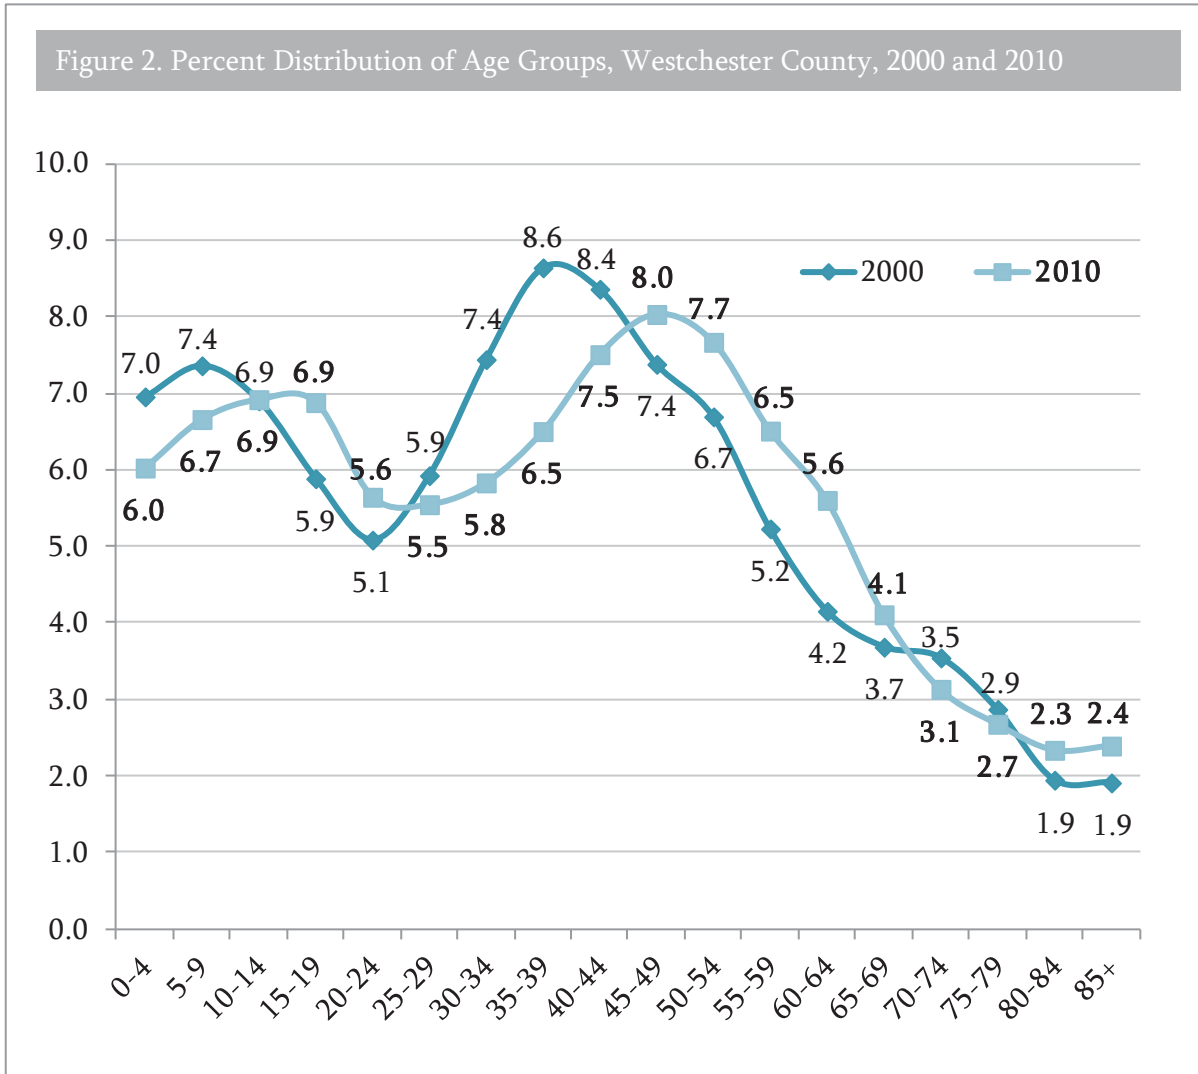

### Age and Sex

According to the 2010 Census, 949,113 people resided in Westchester County, an increase of 2.7% from the 923,459 reported in the 2000 Census. The number of males was 456,661 (48.1%) and the number of females was 493,452 (51.9%) (Figure 1). The ratio of males to females was 0.93 for the county.

Figure 1. Percent Distribution of Age Group by Sex, Westchester County, 2010

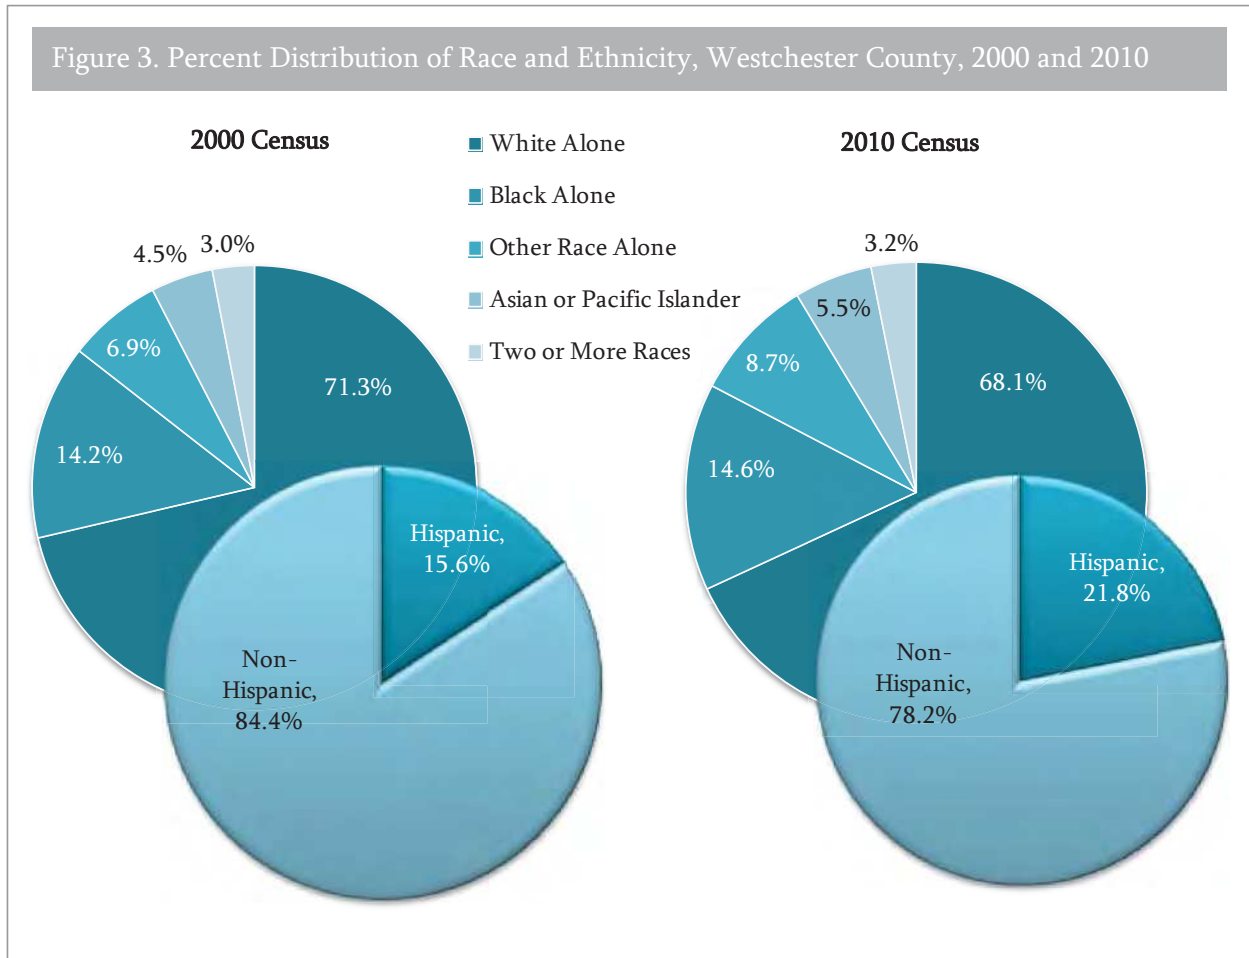

The distribution of age groups changed between 2000 and 2010 (Figure 2). The proportion of children ages 0-4 and 5-9 were smaller in 2010 than in 2000. The proportion of teenagers and young adults ages 20-24 was higher in 2010 than in 2000. The proportion of adults between the ages of 25 and 44 years was smaller in 2010 than in 2000. However, the proportion of adults between the ages of 45 and 69 and ages 80 and over was higher in 2010 than in 2000.

### Race and Ethnicity

Approximately sixty-eight percent of Westchester County residents were white, according to the 2010 Census. The race and ethnicity composition of Westchester County changed from the 2000 to the 2010 Census. (Figure 3).

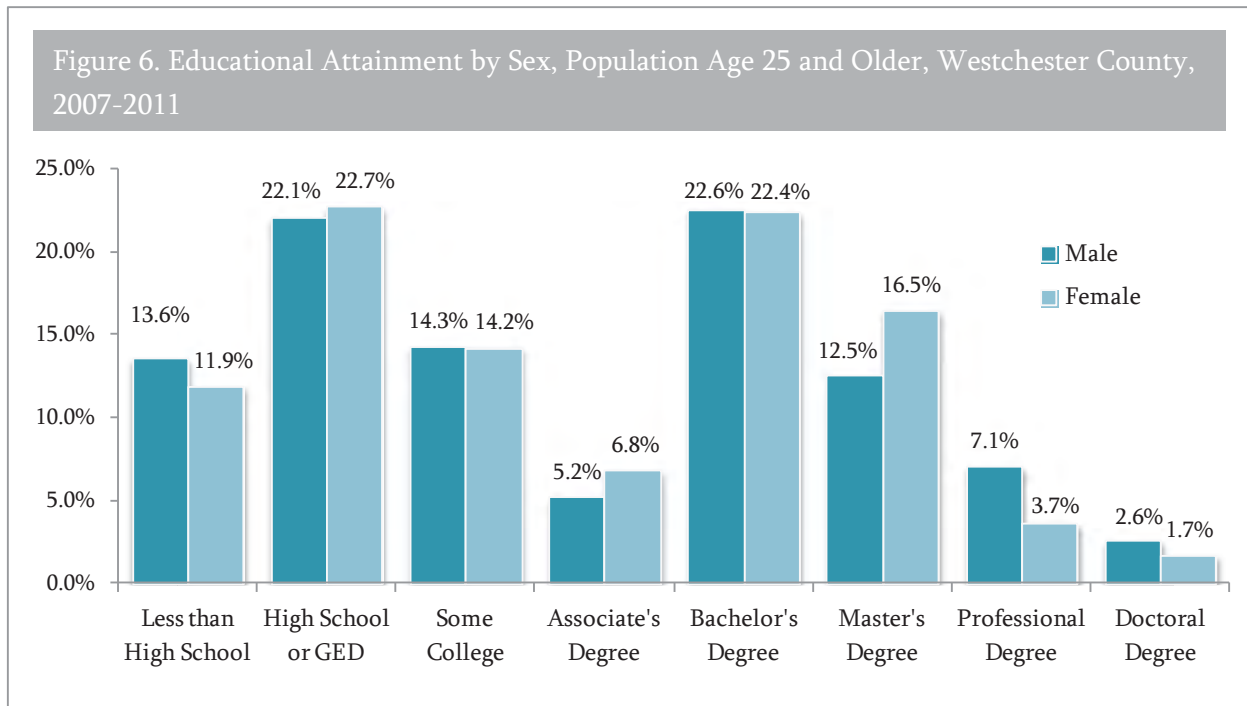

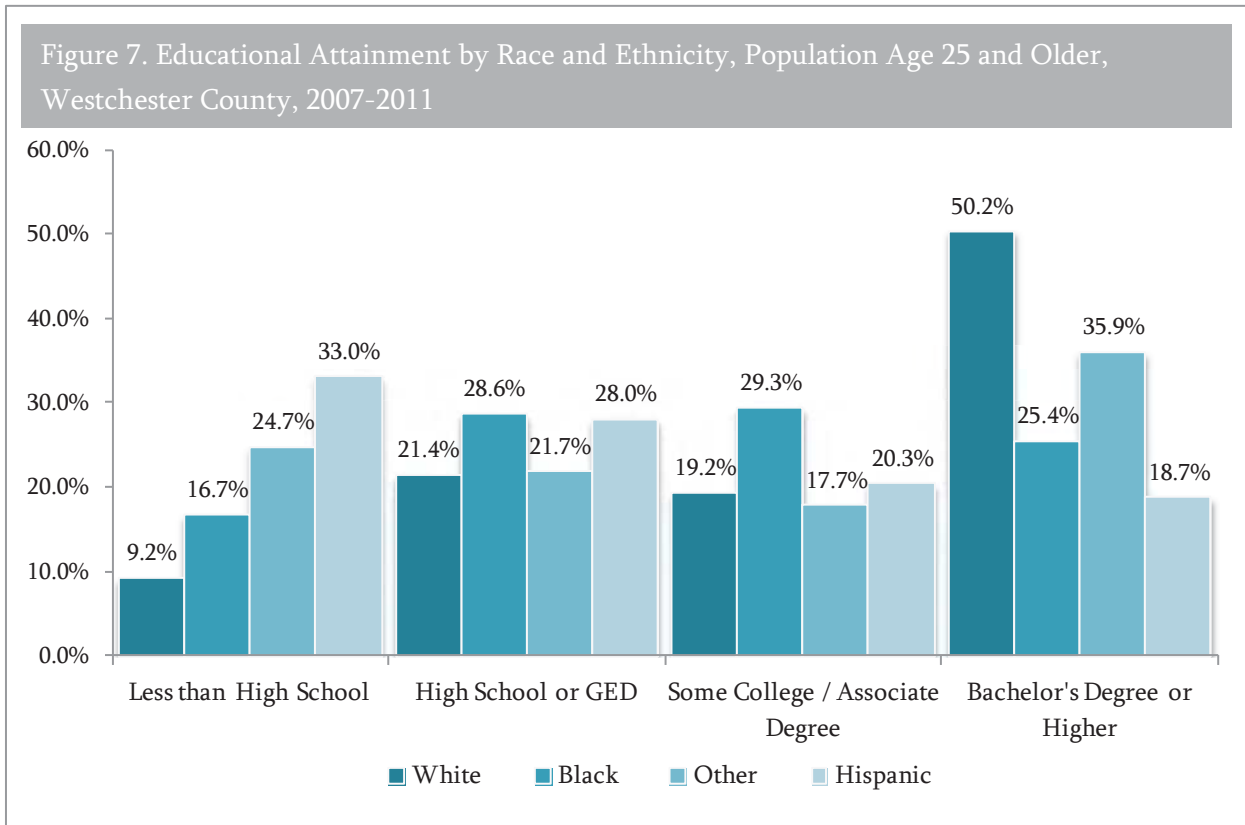

### Educational Attainment

According to the 2007-2011 American Community Survey, the majority of Westchester County residents of ages 25 and older have received at least a high school education. About two-fifths of the residents have received at least a bachelor’s degree. About one-fifth attained a graduate or professional degree.

Educational attainment varied between males and females (Figure 6).

Educational attainment varied among racial and ethnic categories (Figure 7).

### Family Structure

According to the 2007-2011 ACS estimates, there are 345,908 households in Westchester County. 68.9% are family households, defined as a household with at least two related people living together. Among these family households, just under half have children under age 18.

According to the 2007-2011 ACS estimates, almost three-fourths of families with children under 18 years were married-couple families (Figure 9). Over two-fifths were single-mother families and less than 5% were single-father families. The percentage of single-parent households with children under 18 has increased from 2000.

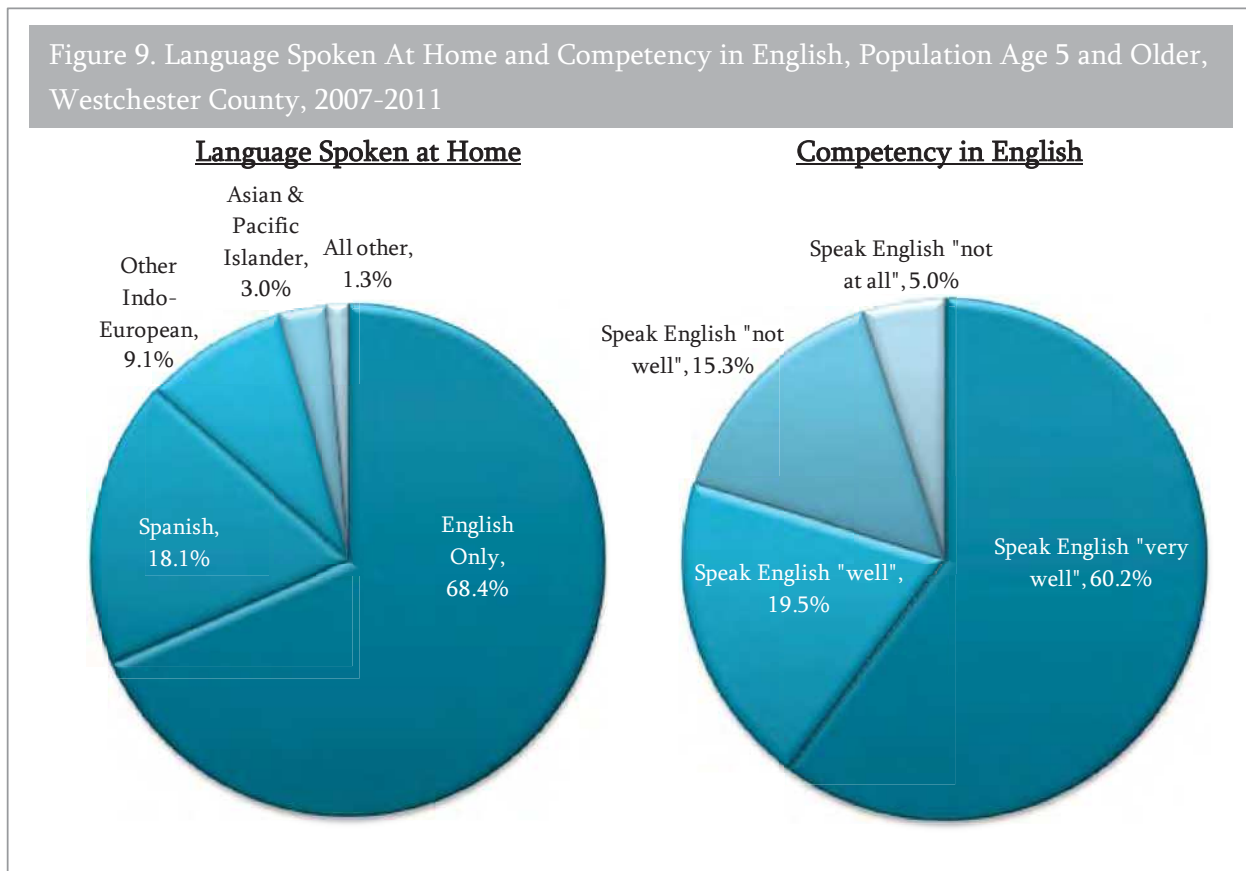

Figure 8. Percent Distribution of Family Structure for All Families with Own Children Under 18 Years of Age, Westchester County, 2000 and 2007-2011

**Immigration and Language Spoken at Home**

According to 2007-2011 ACS estimates, 75.4% of county residents were born in the United States and 24.6% were foreign-born, a significant increase from 22.2% in 2000. The percent of the foreign-born population in Westchester remains significantly higher than the national average of 12.8% in the 2007-2011 ACS. Among the foreign-born population, over half were non-citizens.

Among the population five years and older, 31.6% speak a language other than English at home, a significant increase from 28.4% in 2000 (Figure 9).

Among those who spoke a non-English language at home, 57.3% spoke Spanish (160,456), 29.0% spoke another Indo-European language (81,057), 9.6% spoke an Asian or Pacific Island language (26,739), and 4.1% spoke other types of language (11,553).

### Labor Force Participation and Unemployment

Among Westchester County residents who were at least 16 years of age, 65.7% were in the civilian labor force (nonmilitary employment), according to the 2007-2011 ACS estimates. The unemployment rate was 7.2% among the civilian labor force population, 7.3% and 7.0% for males and females, respectively. The unemployment rates have increased significantly from the 2000 Census for both men and women.

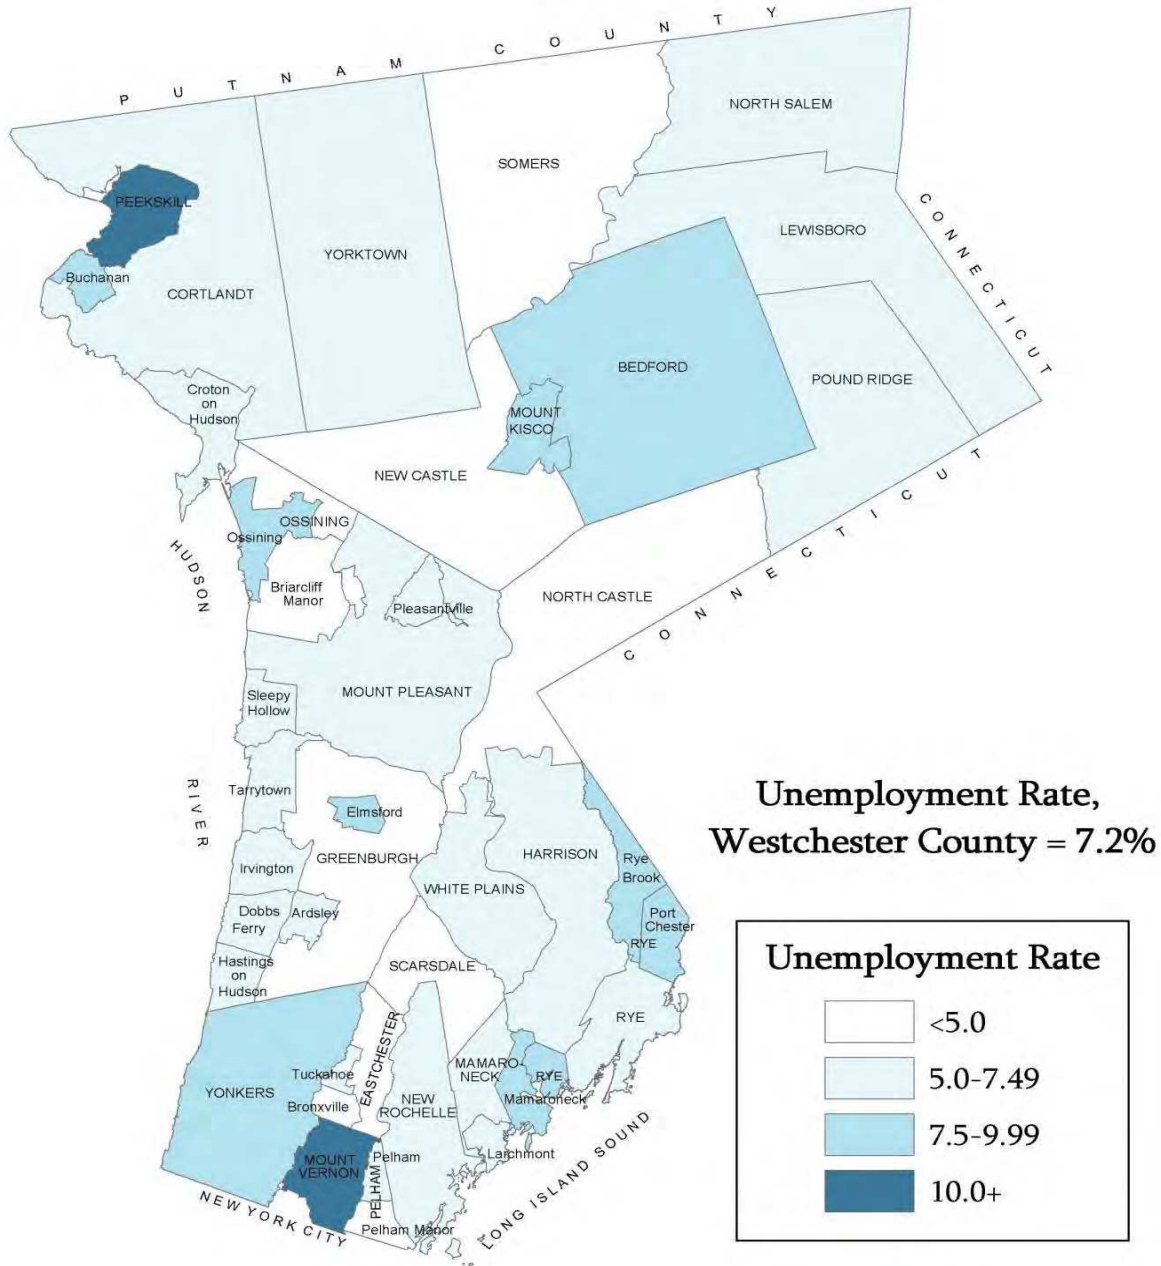

The unemployment rate varied among people of different races and ethnicities (Figure 11).

Nine municipalities had a higher unemployment rate than the county average: Yonkers, Port Chester, Bedford, Ossining, Rye Brook, Mamaroneck, Elmsford, Peekskill, and Mount Vernon. Two municipalities had an unemployment rate of 10.0% or greater, Mount Vernon and Peekskill (Figure 12).

Figure 12. Unemployment Rate by Municipality, Population Age 16 and Older, Westchester County, 2007-2011

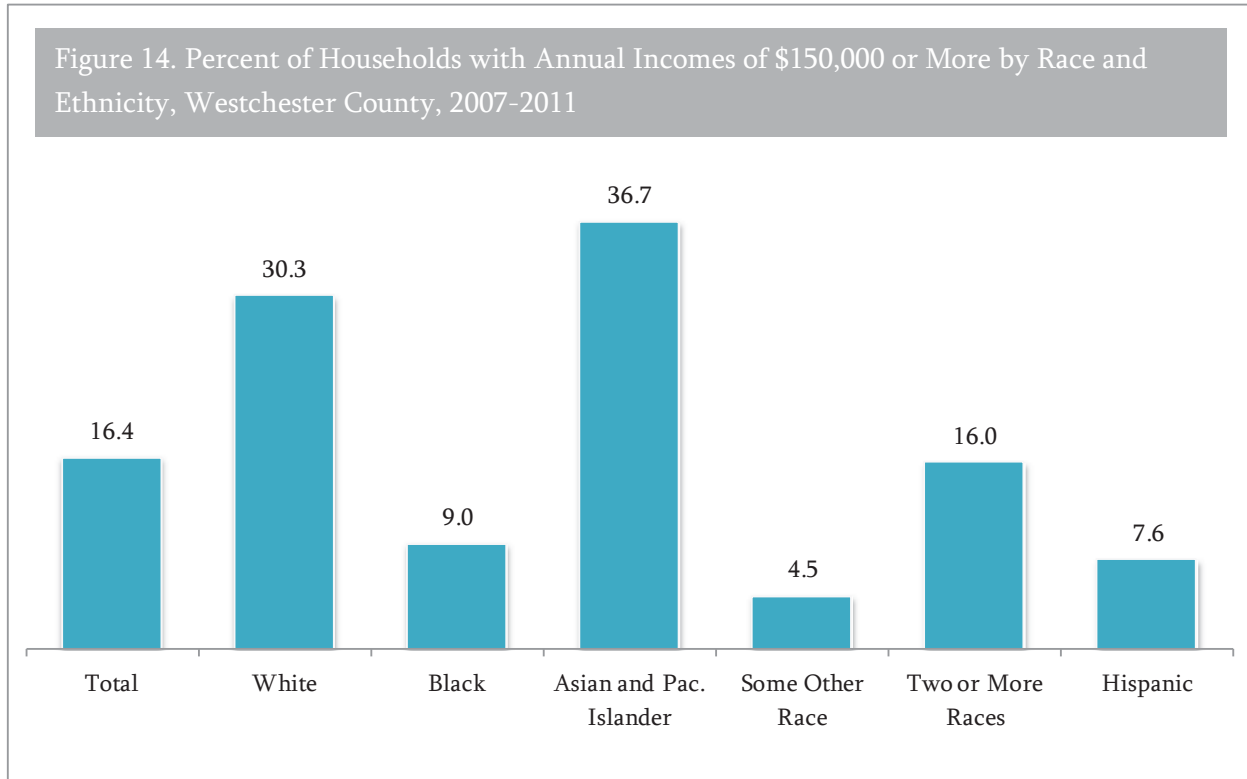

### Household Income and Poverty

According to the 2000 Census, the median household income in Westchester County in 1999 was \$63,582 (\$85,824 adjusted for inflation to 2011 dollars). The county’s median household income was estimated at \$80,725 according to the 2007-2011 ACS.

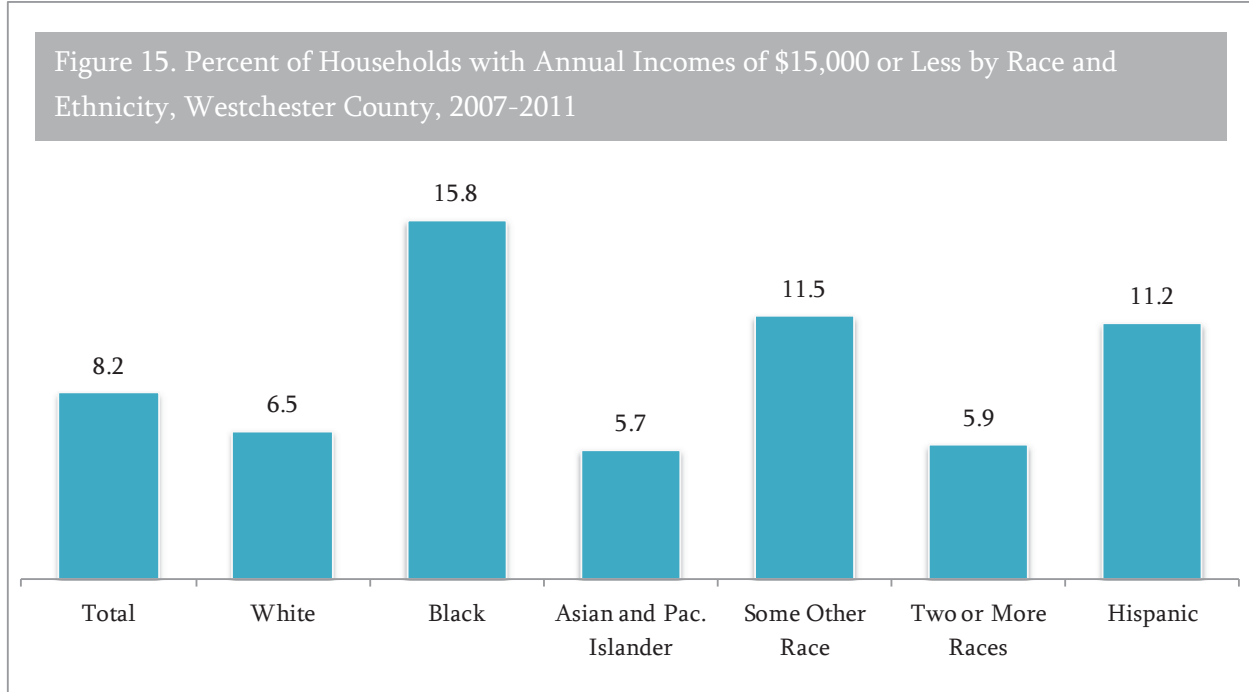

The median household income differed by race and ethnicity (Figure 13).

According to the 2007-2011 ACS, the proportion of households having an annual income of \$150,000 or more was 30.3% for white households, 9.0% for black households, 36.7% for Asian and Pacific Islander households, and 7.6% for Hispanic households (Figure 14).

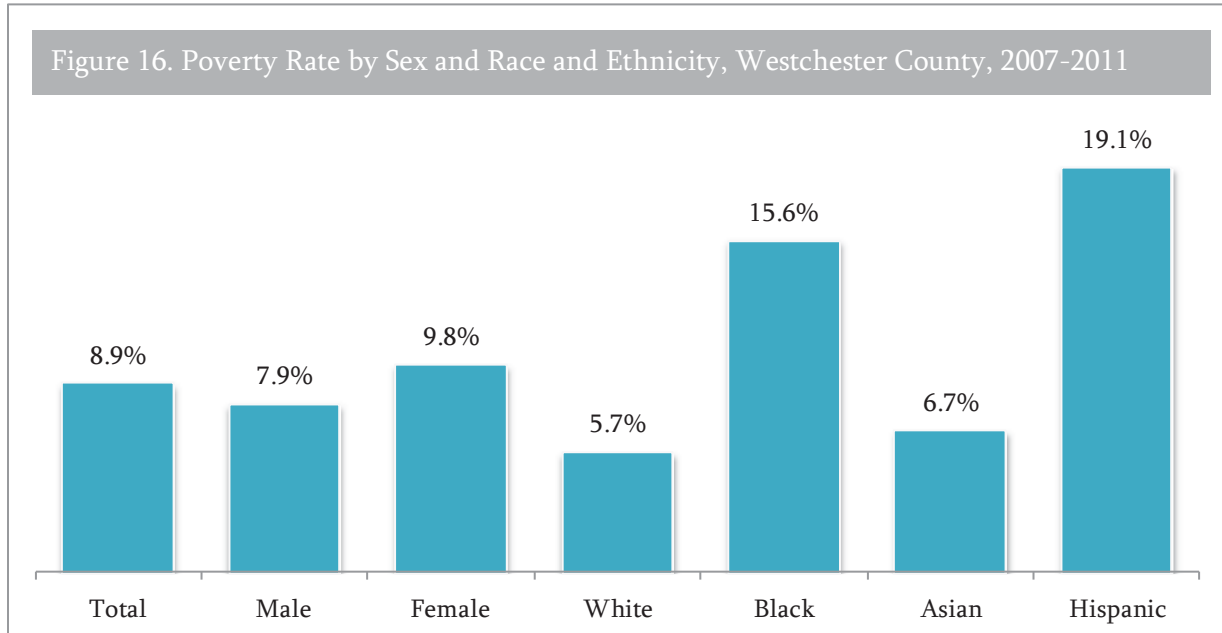

The proportion of households reporting incomes of less than \$15,000 annually was 6.5% for white households, 15.8% for black households, 5.7% for Asian and Pacific Islander households, and 11.2% for Hispanic households (Figure 15).

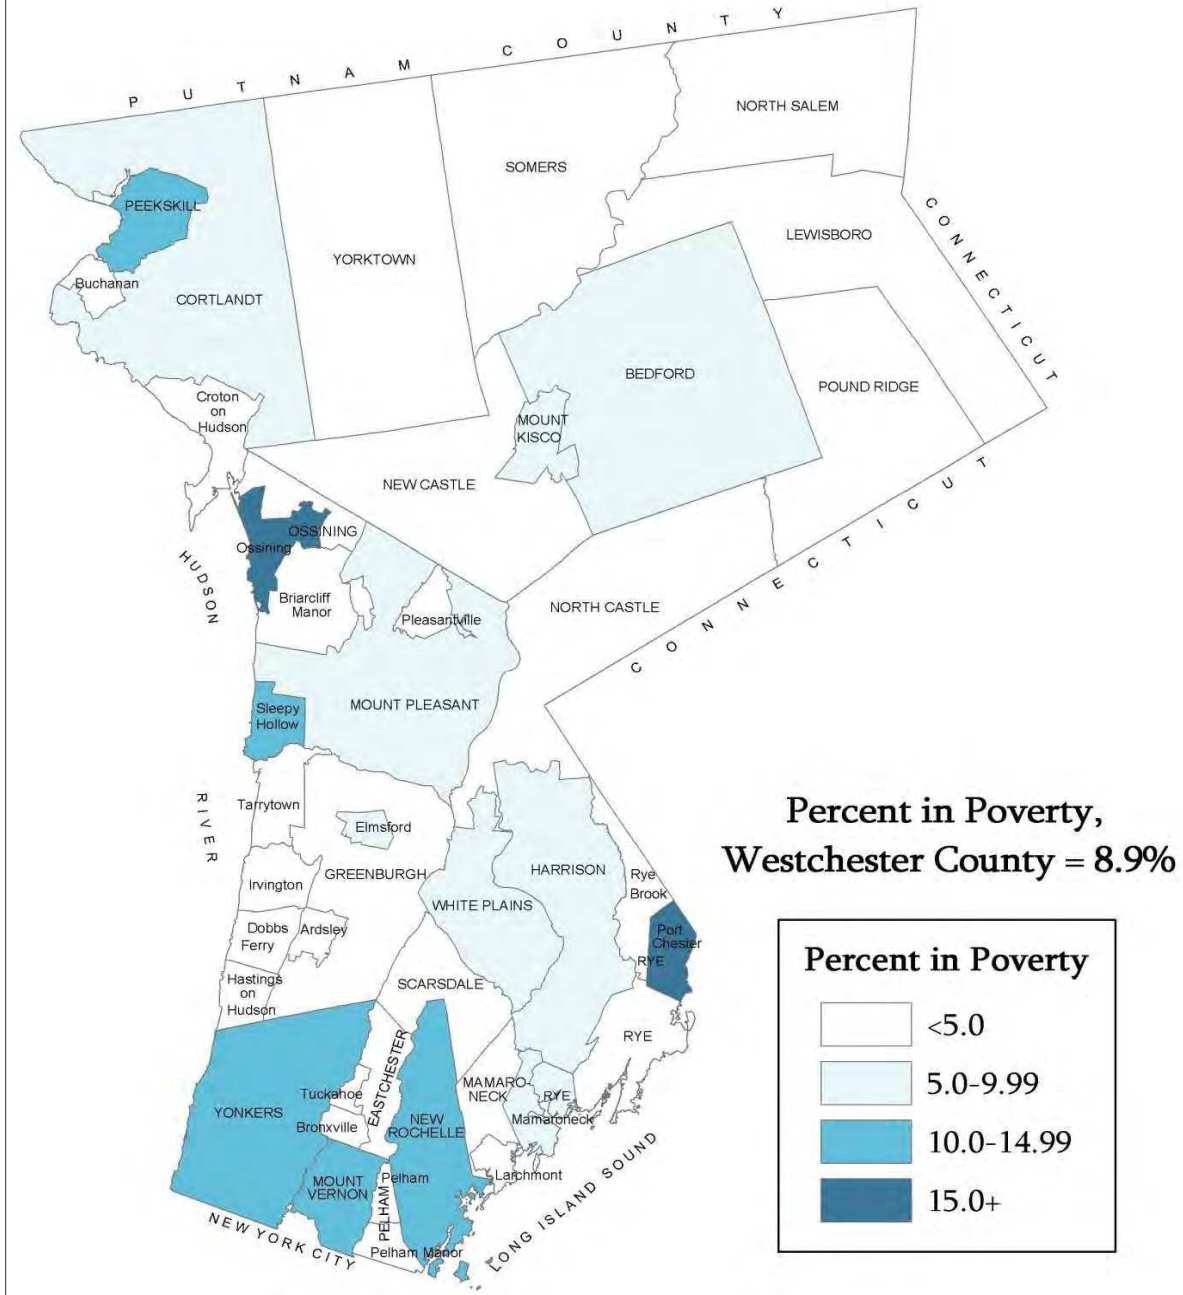

The poverty rate reported by the 2007-2011 ACS was 8.9% and varied among men and women as well as people of different race and ethnicity (Figure 16).

The poverty rate was 9.8% among females and 7.9% among males. Females were more likely to live in poverty than males in every racial and ethnic category.

There were seven municipalities with a percentage of population in poverty greater than 10.0%: Peekskill, Ossining, Sleepy Hollow, New Rochelle, Mount Vernon, Yonkers, and Port Chester (Figure 17).

Figure 17. Percent in Poverty by Municipality, Westchester County, 2007-2011

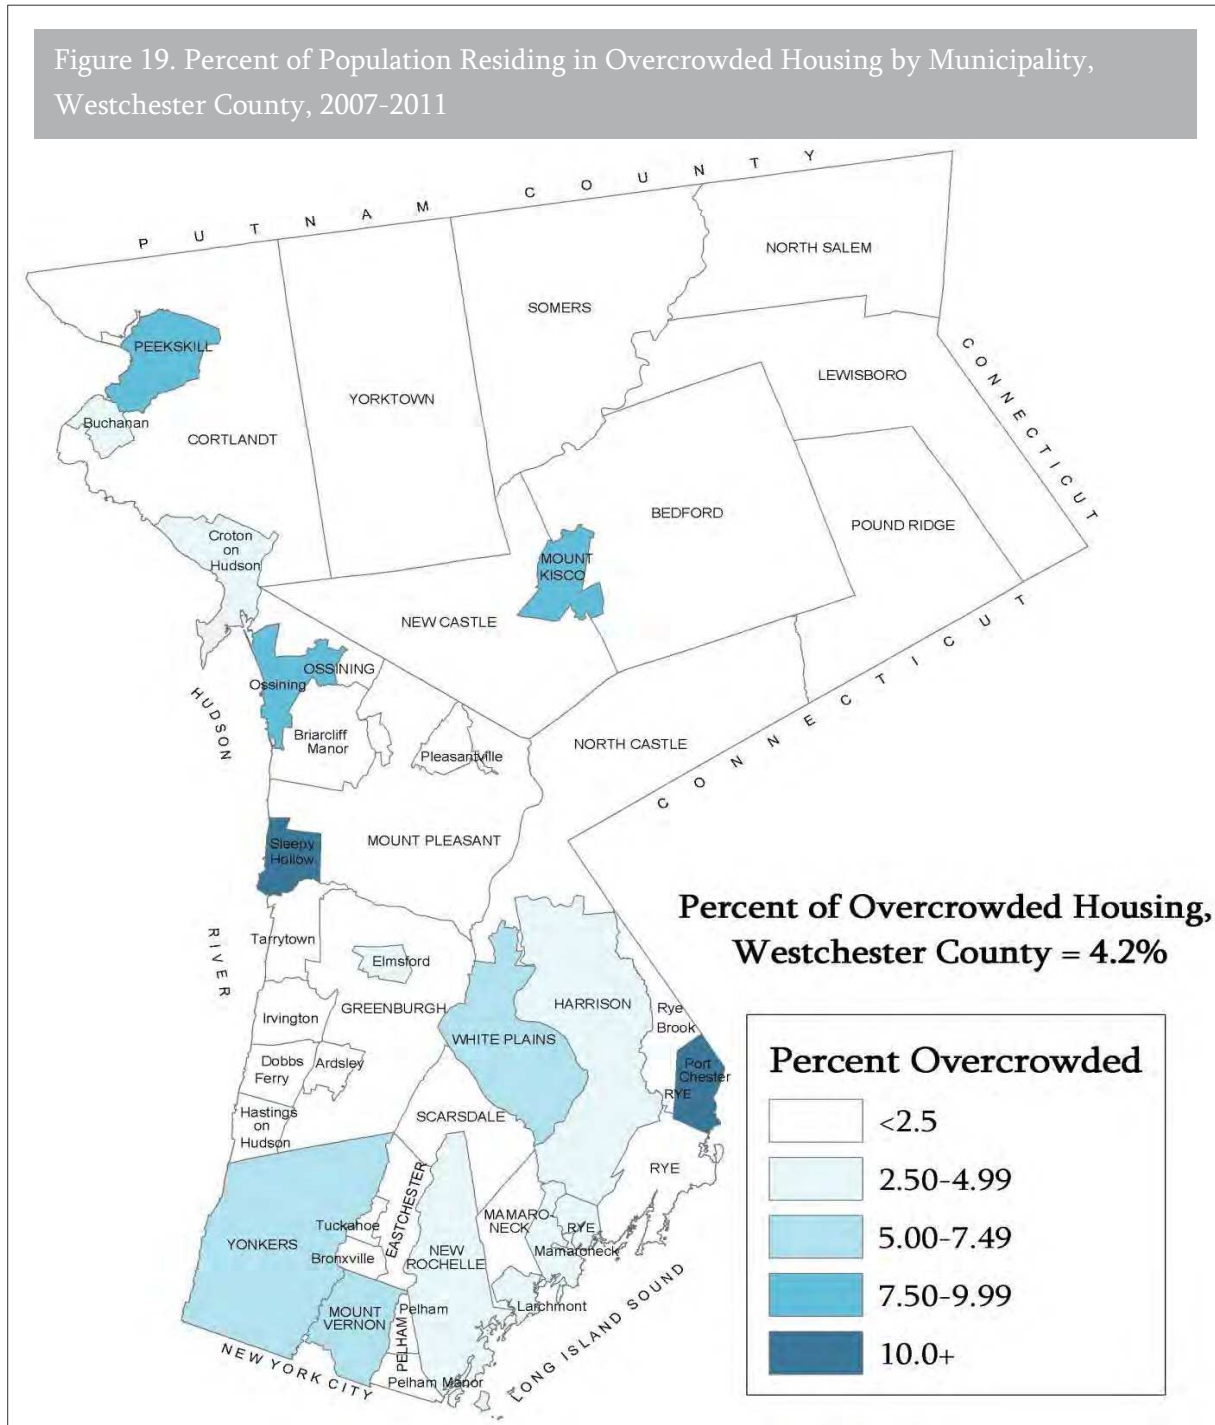

### Housing

According to the 2007-2011 ACS, Westchester County has a total of 369,753 housing units. Over four-fifths (82.9%) of the housing units were constructed before 1980, and almost a third were constructed before 1940 (Figure 18).

Figure 18. Percent Distribution of Housing Units by the Year the Structure Was Built, Westchester County, 2007-2011

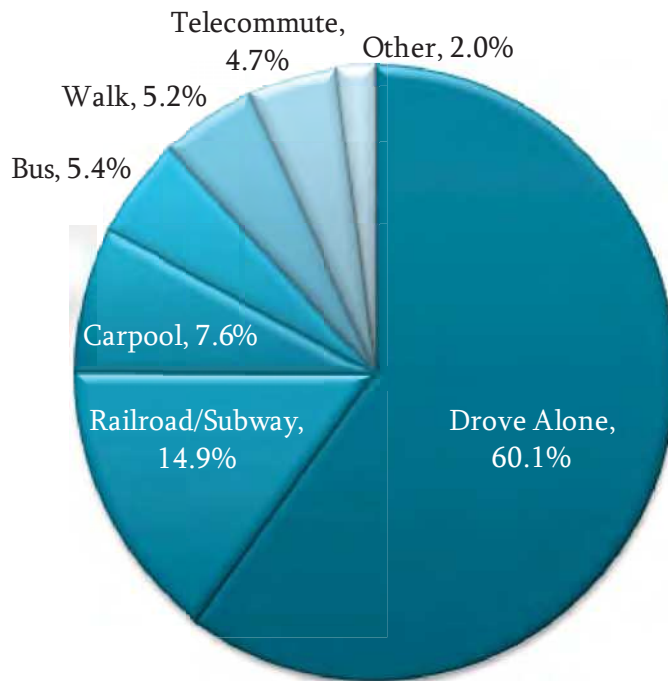

Over 4% of the occupied housing units in Westchester County were reported as “overcrowded” according to the 2007-2011 ACS, defined as more than 1.0 persons per room per occupied housing unit (Figure 19).

### Commuting

90.5% of Westchester County residents commute to work, defined as the journey from home to the geographic location at which workers carry out their occupational activities. Among those commuting, most drove alone to work by automobile, according to the 2007-2011 ACS estimates. Over one-third chose an alternative method of transportation, including public transportation, carpooling, bicycling, walking, or telecommuting (Figure 20).

Figure 20. Percent Distribution of Commuting Method, Westchester County, 2007-2011

\*\* Insufficient numbers of this racial category and Zip Code to generate median.

>200K or >250K: All households in this racial category and zip code were greater than \$200,000 in 1999 or \$250,000 for the 2007-2011 ACS.

Total for the 2000 Census and 2007-2011 ACS are for zip code data within Westchester County boundaries.

# Appendices

## Appendix 1. Data Sources and Definitions

### 2000 Census, 2010 Census and American Community Survey (2007-2011)

Demographic and socio-economic information for Westchester County for the 2013 Annual Data Book is based on data from the 2000 Census and 2007-2011 American Community Survey, collected by the United States Census Bureau.

Data from the 2000 Census are extracted from the Census Summary File 1 (SF 1) and the Census Summary File 3 (SF 3). Summary File 1 presents basic demographic information collected from all people and housing units (100% characteristics, short form). This information includes age, sex, race, Hispanic or Latino origin, household relationship, whether the residence is owned or rented, and vacancy characteristics.

Summary File 3 collects additional socio-economic information from a sample of the total population (long form). Summary File 3 presents data on marital status, place of birth, citizenship and year of entry into the U.S., school enrollment and educational attainment, ancestry, migration, language spoken at home and ability to speak English, veteran status, disability, grandparents as caregivers, employment status, occupation, industry, place of work, commuting habits, class of worker, and work status and income in 1999. Additional information in SF 3 includes housing and residence, vehicle ownership, telephone and utility use, mortgages, taxes, insurance, fuel use, etc. Throughout the United States, the rate of sampling varied from 1 in 2 households in sparsely populated areas, to 1 in 8 for more densely populated areas. The overall sampling rate is 1 in 6 households, or 17%. In Westchester County, the sampling rate in 2000 was 13.5% of all occupied housing units and 13.6% of the population. The SF3 is generally referred to as the 5% sampling file.

Beginning in 2010, the American Community Survey (ACS) is a nationwide survey replacing the 'long form' of the 10-year census and provides updated demographic, economic, social, and housing information of the communities of this country. The decennial census in 2010 now only collects 'short form' data on age, sex, race and ethnicity. Data for the ACS is collected every month throughout the year, and reflects sampling from the current Master Address File of the 2000 Census, updated with information from the United States Postal Service (USPS) Delivery Sequence File, USPS field operations, and address information from partnerships with local governments. Data now includes all county and county-equivalents nationwide and all *municipios* of Puerto Rico, for areas with a population of 65,000 or more, including Westchester County. In 2006, the ACS began collection of data from sampled persons in group quarters (for example, military barracks, college dormitories, nursing homes, and correctional facilities). The 2007-2011 ACS estimates describe the average characteristics of the population over the period from January 1, 2007 to December 31, 2011. Data definitions of demographic, housing, and socioeconomic information are identical to those used in the 2000 Census.

The five-year averages were calculated by pooling the 60 months of collected data. The pooled data were weighted to adjust for geographic factors, month-specific weighting steps, population and housing unit controls, and inflation factors. Geographic corrections were referenced to the final year

in the multiyear period. For example, average estimates for the 2007-2011 time period are referenced to geographic boundaries from 2011.

In several instances throughout the demographic tables, standard errors of combined categories (such as the sum of males and females) were estimated by the WCDH, using the method described on page 11 of **2009-2011 & 2007-2011 Multiyear Accuracy (US)**, a US Census Bureau publication available at [http://www.census.gov/acs/www/data\\_documentation/documentation\\_main/](http://www.census.gov/acs/www/data_documentation/documentation_main/). The estimate of the standard error of a sum is approximately the square root of the sum of the two individual standard errors squared. However, as noted in the Census document, "this method will underestimate or overestimate the standard error if the two estimates interact in either a negative or positive way."

For additional detailed information on Census and ACS 5-year estimates, consult the Census Bureau's website at

[http://www.census.gov/acs/www/Downloads/data\\_documentation/Accuracy/MultiyearACSAccuracyofData2011.pdf](http://www.census.gov/acs/www/Downloads/data_documentation/Accuracy/MultiyearACSAccuracyofData2011.pdf).

### **Race and Ethnicity**

The concept of race, as defined by the U.S. Census Bureau, reflects self-identification by people according to the race or races with which they most closely identify. The categories of race are considered to be socio-political and should not be interpreted as scientific or anthropological in nature.

**White:** A person having origins in any of the original peoples of Europe, the Middle East, or North Africa. It includes people who indicate their race as "White" or report entries such as Irish, German, Italian, Lebanese, Near Easterner, Arab, or Polish.

**Black or African American:** A person having origins in any of the original peoples of sub-Saharan Africa. It includes people who indicate their race as "Black or African American" or provide written entries such as African American, Ethiopian, Somalian, Senegalese, Sudanese, Ghanaian, Kenyan, Nigerian, or Haitian.

**American Indian or Alaska Native:** A person having origins in any of the original peoples of North or South America (including Central America) and who maintain tribal affiliation or community attachment.

**Asian:** A person having origins in any of the original peoples of the Far East, Southeast Asia, or the Indian subcontinent, for example Cambodia, China, India, Japan, Korea, Malaysia, Pakistan, the Philippine Islands, Thailand, and Vietnam.

**Native Hawaiian or Other Pacific Islander:** A person having origins in any of the original peoples of Hawaii, Guam, Samoa, or other Pacific Islands. It includes people who indicate their race as "Native Hawaiian," "Guamanian or Chamorro," " Samoan," and "Other Pacific Islander."

**Other Race:** Includes all other responses not included in the “White,” “Black or African American,” “American Indian or Alaska Native,” “Asian,” and “Native Hawaiian or Other Pacific Islander” race categories described above. Respondents providing write-in entries such as multiracial, mixed, interracial, or a Hispanic/Latino group (for example, Mexican, Puerto Rican, or Cuban) in the “Some other race” write-in space are included in this category.

**Hispanic or Latino:** The data on the Hispanic or Latino population were derived from answers to a question on the 2000 census that was asked of all people. The terms “Spanish,” “Hispanic origin,” and “Latino” are used interchangeably. Some respondents identified with all three terms while others identify with only one of these three specific terms. Origin can be viewed as the heritage, nationality group, lineage, or country of birth of the person or the person’s parents or ancestors before their arrival in the United States. People who identify their origin as Spanish, Hispanic, or Latino may be of any race.

**Two or More Races:** People may have chosen to provide two or more races either by checking two or more race response check boxes, by providing multiple write-in responses, or by some combination of check boxes and write-in responses. The race response categories shown on the questionnaire are collapsed into the five minimum race groups identified by the Office of management and Budget (OMB), and the Census Bureau “Some other race” category. For data product purposes, “Two or more races” refers to combinations of two or more of the following race categories:

- White
- Black or African American
- American Indian or Alaska Native
- Asian
- Native Hawaiian or Other Pacific Islander
- Some other race

## Education

**Educational Attainment:** Educational attainment refers to the highest level of education fully completed in terms of the highest degree or highest level of schooling. This is distinct from the level of schooling that an individual is currently attending.

## Labor Force Participation and Employment

**Labor force:** The labor force includes all people classified in the civilian labor force, plus members of the U.S. Armed Forces (people on active duty with the United States Army, Air Force, Navy, Marine Corps, or Coast Guard). The Civilian Labor Force consists of people classified as employed or unemployed.

**Employed:** Employed includes all civilians 16 years old and over who were either (1) "at work" -- those who did any work at all during the reference week as paid employees, worked

in their own business or profession, worked on their own farm, or worked 15 hours or more as unpaid workers on a family farm or in a family business; or (2) were "with a job but not at work" -- those who did not work during the reference week but had jobs or businesses from which they were temporarily absent due to illness, bad weather, industrial dispute, vacation, or other personal reasons. Excluded from the employed are people whose only activity consisted of work around the house or unpaid volunteer work for religious, charitable, and similar organizations; also excluded are people on active duty in the United States Armed Forces. The reference week is the calendar week proceeding the date on which the respondents completed their questionnaires or were interviewed. This week may not be the same for all respondents.

### Citizenship Status and Language Spoken at Home

**Foreign-born population:** People who are not U.S. citizens at birth. This includes respondents who indicated they were a U.S. citizen by naturalization or not a U.S. citizen.

**Native population:** People born in either the United States, Puerto Rico, or a U.S. Island Area such as Guam or the U.S. Virgin Islands, or people born in a foreign country of American (U.S. citizen) parent or parents.

**Citizen:** People who indicate that they were born in the United States, Puerto Rico, a U.S. Island Area, or abroad of a U.S. citizen parent(s) are citizens. People who indicate that they are U.S. citizens through naturalization are also citizens. Naturalized citizens are foreign-born people who identify themselves as naturalized. Naturalization is the conferring, by any means, of citizenship upon a person after birth.

**Not a Citizen:** People who indicated they were not U.S. citizens at the time of this survey.

**Language spoken at home:** The language currently used by respondents at home, either "English only" or a non-English language which is used in addition to English or in place of English.

### Family Structure and Housing

**Household:** A household consists of all the people who occupy a housing unit. A house, an apartment or other group of rooms, or a single room, is regarded as a housing unit when it is occupied or intended for occupancy as separate living quarters; that is, when the occupants do not live and eat with any other persons in the structure and there is direct access from the outside or through a common hall.

**Family Household:** A group of people living in a household who are related to the householder by birth, marriage, or adoption.

**Non-Family Household:** A non-family household consists of a householder living alone (a one-person household) or where the householder shares the home exclusively with people to whom he/she is not related.

**Family:** A household whose members are related by birth, marriage or adoption. Family households may also include unrelated individuals.

**Married-Couple Family:** A family consisting of two legally married people, with or without own children under 18.

**Single Mother Family or Single Father Family:** A family household consisting of one parent, no spouse, and own children under 18. Other adults may share the household as well.

**Related children:** Includes all people in a household under the age of 18, regardless of marital status, who are related to the householder. Does not include householder's spouse or foster children, regardless of age.

**Overcrowded Housing:** An overcrowded housing unit is defined as a housing unit with greater than 1.0 persons per room.

## Income and Poverty

**Total income:** The sum of the amounts reported separately for wages, salary, commissions, bonuses, or tips; self-employment income from own non-farm or farm businesses, including proprietorships and partnerships; interest, dividends, net rental income, royalty income, or income from estates and trusts; Social Security or Railroad Retirement income; Supplemental Security Income (SSI); any public assistance or welfare payments from the state or local welfare office; retirement, survivor, or disability pensions; and any other sources of income received regularly such as Veterans' (VA) payments, unemployment compensation, child support, or alimony.

In 2000 Census, income was reported for the calendar year 1999. In the ACS surveys, income was reported for the period covering the last 12 months. For comparison with the 2007-2011 ACS, incomes from the 2000 Census were inflation-adjusted for the final year of the period (income \* 1.34981610), using the national Consumer Price Index by the Census Bureau (Edward J. Welniak, American Community Survey, Income Bureau, (301) 769-3243, 7/17/2013).

**Poverty:** Following the Office of Management and Budget's (OMB's) Directive 14, the Census Bureau uses a set of money income thresholds that vary by family size and composition to delineate who is in poverty. If the total income for a family or unrelated individual falls below the relevant poverty threshold, then the family or unrelated individual is classified as being "below the poverty level."

## Commuting

**Commuting:** Commuting refers to a worker's travel from home to the geographic location at which workers carry out their occupational activities. A worker is defined as a person 16 years old and over, who was employed and at work during the reference week. Commuting method refers to the principal mode of transportation or type of conveyance that the worker usually used to get from home to work during the reference week. People who used different means of transportation on different days of the week were asked to specify the one they used most often, that is, the greatest number of days. People who used more than one means of transportation on a daily basis were asked to report the one used for the longest distance during the travel to work.

## Appendix 2. Westchester County Municipalities

Health Planning Region and Municipality <sup>1</sup>	Code <sup>2</sup>
Northwest	
Cortlandt Town	T
Buchanan Village	V

Bronxville Village	V
Tuckahoe Village	V
Eastchester Unincorporated	TOV
Mount Vernon	C
New Rochelle	C
Pelham Town	
Pelham Village	V
Pelham Manor Village	V

1 For regional planning purposes, municipalities are grouped into six geographic health planning regions.

2 A town may or may not include incorporated villages located within the town boundary. When it does not include any incorporated villages within the town boundary, the statistics refer to the town as a whole (T). When it does include incorporated villages within its boundary, the statistics refer to the unincorporated area within the town boundary (TOV). The entities of Harrison, Mount Kisco, and Scarsdale are both towns and villages (V/T). The land in two towns, Pelham and Rye, has been incorporated into separated villages. Cities are denoted by (C).

3 The Village of Briarcliff Manor and the Village of Mamaroneck are split between two towns. Briarcliff Manor is within the Town of Ossining (92% of its surface area and 91% of its population) and the Town of Mount Pleasant (8% of its surface area and 9% of its population). The Village of Mamaroneck is within the Town of Mamaroneck (63% of its surface area and 60% of its population) and the Town of Rye (37% of its surface area and 40% of its population).
